## Periodic Table Answer Key

**periodic table puns answer key - sciencespot** - periodic table puns answer key periodic table puns 1 1. what you do in a play - actinium - ac 2. what you do to a wrinkled shirt - iron - fe 3. "tasty" part of your mouth - tungsten - w 4. someone who likes to start fires - arsenic - as 5. superman's weakness - krypton - kr 6. your brother or mine - bromine - br 7. extinct - argon - ar 8. **periodic table basics - answer key 10 0** - periodic table basics - answer key 1. how many elements in your table were: (a) solids: 10 (b) liquids 0 (c) gases 8 2. which elements had complete outer shells? give the name and symbol for **periodic table puzzle - answer key** - periodic table puzzle - answer key down: 1. iron - i have 26 protons. 3. hydrogen - i am not really an alkali metal, but since i have only 1 electron i behave like them. 4. nickel - i am a metal with 28 electrons. 7. aluminum - i am a member of the boron family and am the most abundant metal in the earth's crust. 8. **answer key trends on the periodic table - rocklin.k12** - answer key trends on the periodic table part 1: identifying chemical properties/characteristics of the elements for each of the following elements, draw a caricature or cartoon above the description to show its **alien periodic table answers - mytoe** - alien periodic table answers 1 18 1 pf 2 13 14 15 16 17 bo 2 ch d s l a t e m s n a r t e fx g nu a l 3 by z yz hi m oz kt j 4 q do r t ss up v wo 5 x pi an el key ... **periodic table packet #1 - pc\mac** - periodic table packet #1 answers directions: answer the questions with the proper information using your notes, book, and the periodic table. 1. define a family. groups on the table are sometimes called families. 2. what is a period? a period is a row on the periodic table 3. what is the symbol for the following elements. a. magnesium mg b ... **introducing the periodic table - 5 answer key name: \_\_\_ date: \_\_\_ powerpoint worksheet introducing the periodic table 1. what is the periodic table? it is a chart that organizes the elements by their increasing atomic numbers as well as by their ... the periodic table was designed to make room for and predict the existence of elements that had not yet been discovered ... the periodic table webquest!! on the shoulders of giants** - the periodic table webquest!! answer the questions on the following pages using the information on the websites provided. on the shoulders of giants click here complete the following table using information from the website above. scientist contribution to the development of the periodic table greek thinkers lavoisier **chemistry: the periodic table and periodicity** - chemistry: the periodic table and periodicity . 1. by what property did mendeleev arrange the elements? 2. by what property did moseley suggest that the periodic table be arranged? 3. what is the periodic law? 4. what is a period? how many are there in the periodic table? 5. what is a group (also called a family)? how many are there in the ... **section 6.1 organizing the elements (pages 155-160) (page 155)** - the properties of other elements in the periodic table. it also describes the use of electron configurations to classify elements. squares in the periodic table (pages 161-163) 1. label the sample square from the periodic table below. use the labels element name, element symbol, atomic number, and average atomic mass. 2. **periodic table review - humble independent school district** - periodic table review answer key directions: complete the chart using a periodic table. m- metals nm- nonmetals mt- metalloids element lithium neon fluorine m, nm, mt m nm nm reactivity highly reactive non-reactive highly reactive directions: fill in the blanks to the statements below. **h ws trends in the periodic table key - cvusd home** - analysis for the electronegativity table: (answer in complete sentences.) 1. as the atomic number increases across a period what happens to the electronegativity and why? ... h ws trends in the periodic table key ... **answers to topic 5 periodic table from review book - quia** - the left side of the periodic table is composed of metals, which have few valence electrons. moving to the right, there are more electrons and their mobility is less, reducing their metallic properties. when most of the orbitals are filled, the atoms take on nonmetallic characteristics. when orbitals are full, a noble gas configuration is attained. **periodic trends worksheet answers** - periodic(trends(worksheet(((answer key 1. circle)the)element)withthe)largest)atomic)radius)andput)a)square)aroundthe)element)withthe)smallest)atomic)radius:))) cu) k) ni) br))) largest - k smallest - br) explainwhy)you)madethesechoices.) atomic radius decreases as you go left to right across a period. potassium is in the far **periodic table scavenger hunt** - use the periodic table of elements and your text book to explore and learn to use the periodic table. to answer each of the questions below, draw the atomic number, chemical symbol and element name in the boxes provided. section 1: names and symbols 1. find at least 3 elements named after countries 2. **periodic table puzzle answer key** - "periodic table worksheet" answer key 1. group 1 - alkali metals, especially bottom-left.(reactivity increases as you move down the group.) francium is the most reactive metal. 2. group 17 - halogens ("salt makers"), especially top-right (before noble gasses); fluorine is the most reactive nonmetal. **scps chemistry worksheet - periodicity** - ionization energies tend to increase across periods of the periodic table. 8. an element with a high ionization energy is classified as a (n) non-metal (will also take noble gas as an answer). 9. the attraction an atom has for shared electrons is called electronegativity. ... periodicity - a. c. scps chemistry worksheet - periodicity - 2 scps ... **unit 3 notes: periodic table notes - loudoun county public** ... - unit 3 notes: periodic table notes • john newlands proposed an organization system based on increasing atomic mass in 1864. • he noticed that both the chemical and physical properties repeated every 8 elements and called this the \_\_\_ law of octaves \_\_\_. • in 1869 both lothar meyer and dmitri mendeleev showed a connection **atom periodic table study guide answers** - 17. are most elements solids, liquids or gasses?

solids 18. what do you know about artificially made elements? artificially made elements tend to have large masses and all are radioactive. **ch 6 study guide answers** - section 6.3 periodic trends 1. c 2. c 3. d 4. b 5. a 6. a 7. ionization energy is the energy required to remove an electron from a gaseous atom. 8. a high ionization-energy value indicates that the atom has a strong hold on its electrons and is not likely to lose an outer electron and form a positive ion. **periodic table webquest - plainfield south high school** - part iv: "periodic trends" the periodic table is called such because many properties are periodic functions of their elements. in this section you will define each of the periodic properties and describe how the properties vary across a row and down a column of the periodic table. **5 the periodic law - jefferson township public schools** - the periodic law section 1 short answer answer the following questions in the space provided. 1. c in the modern periodic table, elements are ordered (a) according to decreasing atomic mass. (b) according to mendeleev's original design. (c) according to increasing atomic number. (d) based on when they were discovered. **the periodic table and physical properties; grade 8 chapter 7** - the periodic table and physical properties 5 lab: version a continued data table substance element in substance physical change to substance how to change substance back analyze and conclude 1. explain why you chose certain substances for your investigation. 2. explain why you chose the physical changes you made. 3. **periodic table worksheet - strasburg-franklin local schools** - periodic table packet #1 name \_\_\_\_ period \_\_\_\_ directions: use your periodic table to complete the worksheet. 1. what is the atomic symbol for silver? 2. what is the atomic mass of mercury? 3. ni is the symbol for what element? 4. the element that has the atomic number 17 is? 5. list the symbols for two transition metals. 6. **electrons/periodic table review packet** - electrons/periodic table review packet ... for questions 12 - 15, label the following key box as it should appear on your periodic table 12. \_\_\_\_ 13. ... based on the concept of periodic trends, answer the following questions for these atoms: li, be, mg, na. **name worksheet: periodic trends period - kmacgill** - name \_\_\_\_ worksheet: periodic trends period \_\_\_\_ 1. which statement best describes group 2 elements as they are considered in order from top to bottom of the periodic table? (a) the number of principal energy levels increases, and the number of valence electrons increases. **chapter 6: the periodic table and periodic law** - 174 chapter 6 • the periodic table and periodic law section 6.1.1 development of the modern periodic table main idea the periodic table evolved over time as scientists discovered more useful ways to compare and organize the elements. **chapter test properties of atoms the periodic table answer key** - key concepts . the periodic table is a chart containing information about the atoms that make up all matter. an element is a substance made up of only one type of atom. the periodic table | chapter 4: the periodic table ... example 2: cyclobutane. cyclobutane is a cyclic alkane, and it has four carbon (c) atoms, so  $n = 4$ . **episode 7 - the periodic table - teachlearnchem** - episode 7 - the periodic table answer key 1. what two types of properties are described in the video? physical and chemical 2. what are some examples of physical properties? density, melting point, boiling point 3. how many elements are on the modern periodic table? how many of these can be found in nature? over 100; about 90 4. **periodic table study guide - rpdp** - periodic table. name two of the sets of elements, more for bonus points. alkali/alkaline earth metals 1. color the alkali metals orange, and the alkaline earth metals green on the periodic at the back of the packet. draw a key at the bottom of the page that identifies the meaning of each color. continue expanding this key as you add to the table. **the periodic table and atomic structure test** - the periodic table and atomic structure test multiple choice identify the choice that best completes the statement or answers the question. 31) the smallest particle into which an element can be divided and still have the properties of that element is **periodic table basics - sciencespot** - periodic table basics answer key 1. which elements had complete outer shells? give the name and symbol for each. helium he neon ne argon ar what do you notice about the location of these elements? they are all located in the same column at the far right edge of the periodic table. 2. which elements had only one valence electron? **section 5.2 5.2 the modern periodic table** - 5.2 the modern periodic table reading strategy previewing copy the table below. before you read, write two questions about the periodic table on pages 132 and 133. as you read, write answers to your questions. key concepts how is the modern periodic table organized? what does the atomic mass of an element ... answer to . . . figure 5 3 octaves ... **periodic table most wanted answer key** - periodic table most wanted answer key.pdf free download here name: section: - mr. jones's science class ... periodic table puzzle - answer key down: 1. ... aluminum - i am a member of the boron family and am the most abundant metal in the earth's crust. 8. oxygen ... **color coding the periodic table - plain local schools** - this worksheet will help you understand how the periodic table is arranged. your teacher will give you a copy of the periodic table to color. using colored pencils, color each group on the table as follows: refer to page r11 in your student planner. as you work, make a key on the bottom of your periodic table to indicate which color represents ... **periodic table scavenger hunt key** - periodic table scavenger hunt . search your periodic table for the answers to these questions. 1. which element is number 14 on the periodic table? 2. what is the element symbol for californium? 3. how many protons are in an atom of bismuth? 4. ble gas to which element group does argon belong? 5. which element would you expect to have a higher ... **lesson plan: exploring periodic trends** - periodic table; and electron affinity, electronegativity, and ionization energy, which increase as one moves up and to ... determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a ... as a class, answer

---

the questions in the questions/hypotheses column of the exploration charts, placing ... **periodic table and electron configuration worksheet answers** - title: microsoft word - periodic table and electron configuration worksheet answerscx author: good, brian created date: 2/10/2015 7:23:47 pm **who am i - lhsblogs.typepad** - table salt. 4. family in group 18 on the periodic table questions 5-6 5. horizontal rows on the periodic table 6. each element in a period is in a \_\_\_\_ group questions 7-8 7.elements on the left side of the periodic table 8.elements on the right side of the periodic table questions 9-10 9. elements in groups 3 - 12 on the periodic table 10. **unit 6: the period table & bonding- regents chemistry 14 ...** - unit 6: the period table & bonding-key regents chemistry 14- z15 mr. murdoch website upload 2014 page 3 of 49 unit 6 vocabulary: 1. alkali metal: an element in group 1 of the periodic table that is extremely reactive. 2. alkaline earth metal: an element in group 2 of the periodic table that is very reactive. 3. anion: a negatively charged ion. 4. **top secret periodic table - birmingham schools** - top secret periodic table chemistry geophysical science 1 c top secret periodic table purpose to discover patterns from various kinds of information in order to arrange elements or items into a meaningful sequence. discussion because of your expertise in such matters, you have been chosen for this top secret mission. **12 s080301e interpreting the periodic table key** - interpreting the periodic table key examine the hypothetical periodic table shown below. use this periodic table to answer the questions that follow. k j f d r 1. which pair of elements has the same number of valence electrons? k and f \_\_\_\_ 2. **chapter 6: the periodic table and periodic law - irion-isd** - the periodic table and periodic law 150 chapter 6 what you'll learn you will explain why elements in a group have similar properties. you will relate the group and period trends seen in the periodic table to the electron configuration of atoms. you will identify the s-, p-, d-, and f-blocks of the periodic table. why it's important **periodic table scavenger hunt - springfield public schools** - answer the questions on the following pages using the information on the websites provided. important scientists do research to find out what these scientists contributed to the understanding of atoms and/or the periodic table. be specific and provide details! scientist contribution democritus dmitri mendeleev john dalton organization of the ... **pre and post tests multiple choice 1. - beacon learning center** - use the periodic table to answer these questions. multiple choice 1. neon is an example of a(n): ... chlorine and bromine are both found in the same group in the periodic table. name this group. are these elements metals or nonmetals? how many valence ... answer key to student periodic table worksheet 1. a. ba, 56, 137.33, 2, 2, metal
